

**TQA** GROUP  
PTY LTD

*Maximize Safety and  
Efficiency with  
Our Comprehensive  
Business Services*

# ABOUT US

## Welcome to **TQA Group Pty Ltd.**

We specialize in providing essential services to companies, ensuring their operations run smoothly, efficiently, and safely. Our team of experts is committed to enhancing workplace safety, optimizing storage solutions, and maintaining compliance with regulations. Let's dive into the services we offer:

## 1. Pallet Racking Audits

### **Safety First: AS4084-2023 Compliance**

- **Why Pallet Racking Audits Matter:**

- Employee safety is our top priority. Regular pallet racking audits identify potential hazards, reduce accidents, and ensure compliance with Australian Standards (AS 4084 2023).
- By conducting audits, we extend the lifespan of your racking systems, save costs, and minimize downtime.

- **Our Process:**

1. **Preparation:** We schedule an audit at your convenience.
2. **Visual Inspection:** Our qualified inspectors thoroughly examine your racking systems.
3. **Load Capacity Assessment:** We assess load capacities to prevent overloading.
4. **Documentation and Reporting:** You receive a detailed report with recommendations.
5. **Action Plan and Quote:** We provide actionable steps to enhance safety.
6. **Regular Follow-up:** We ensure ongoing compliance and safety.

## 2. Traffic Management Plans

### **Navigating Efficiency**

- **Why Traffic Management Plans?**

- Efficient traffic flow within your premises is crucial. Our customized plans optimize movement, reduce congestion, and enhance productivity.
- Whether it's pedestrian pathways or vehicle routes, we've got you covered.

- **Our Approach:**

- We analyze your site layout, assess traffic patterns, and design tailored plans.
- Safety signage, speed limits, and designated routes are part of our comprehensive solutions.

## 3. Signage Audits

### Clear Communication

#### • Why Signage Audits?

- Effective signage ensures clear communication, preventing confusion and accidents.
- Our audits assess existing signage, identify gaps, and recommend improvements.

#### • What We Offer:

- Compliance with safety regulations (e.g., exit signs, hazard warnings, and directional signage).
- Customized solutions based on your specific needs.

## 4. Fire Extinguisher Testing Services

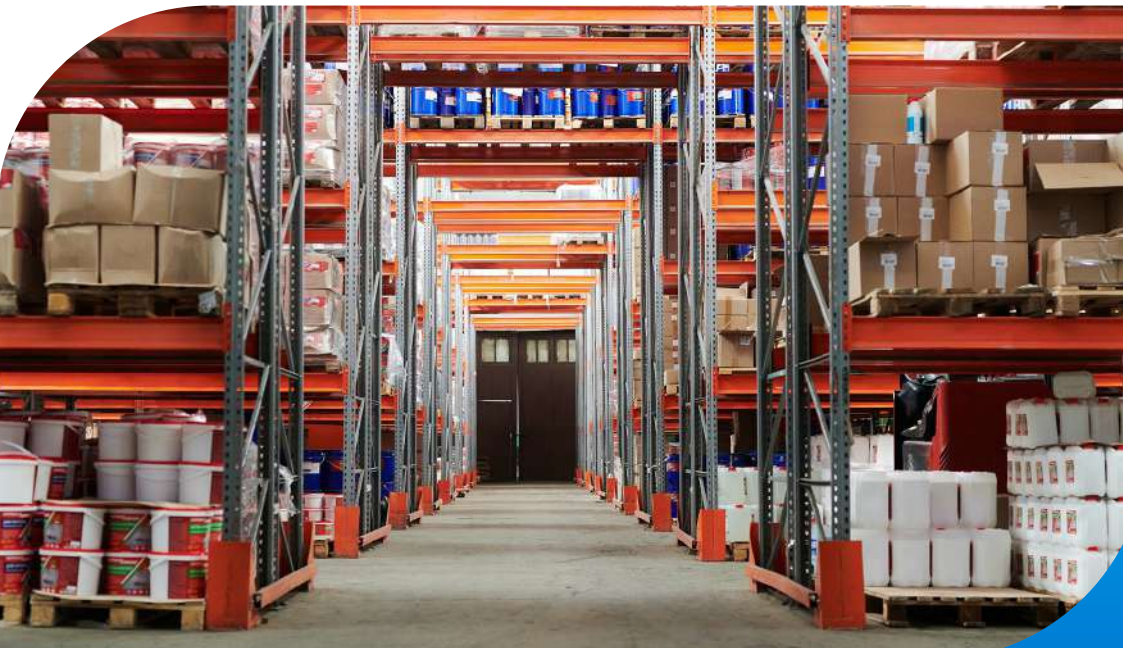

Ensure your fire extinguishers are ready when you need them most. Our comprehensive testing service includes:

- Visual inspection for damage or wear
- Pressure and functional testing
- Recharge or replacement as necessary

**Certification # 14241433-9272001**

## Contact Us Today

Secure your business's safety and efficiency by partnering with us. Book your audit now to ensure full legal compliance. Our experienced team is ready to assist you!
